## GRP Handrail Supplied To Prestigious 'Chorley Flying Arches' Project

Fibregrid successfully delivers FibreRAIL GRP handrail system at the £7 million Chorley Tunnel and Flying Arches reinstatement scheme.

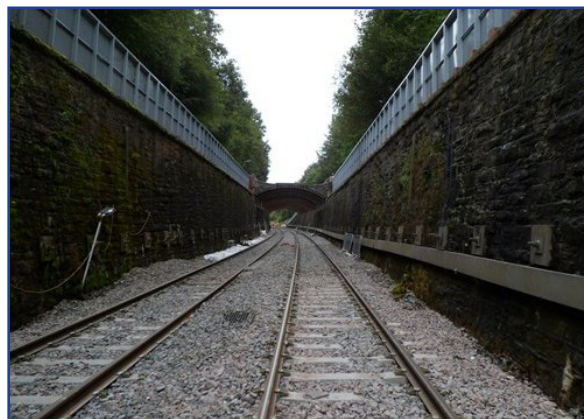

The project which was originally scheduled to take place over a two year period was completed during a six week blockade. The huge time saving achieved was largely due to the ease and speed of installation associated with Fibregrid's products.

**FibreRAIL** provides the look and performance of a custom made handrail system in an easily assembled, cost effective package.

**FibreRAIL** is expertly engineered to use the fewest number of handrail components of any system available facilitating an easier, faster installation.

- Extremely hard wearing and durable
- Lightweight
- Corrosion resistant
- Speed of installation
- Easy to handle and install
- Excellent resistant to acidic compounds
- Low carbon print
- Low maintenance cost
- Rapid installation
- Long effective service life

*"FibreRAIL is expertly engineered to use the fewest number of handrail components of any system available facilitating an easier, faster installation."*
