

Power & Utilities Sector

FibreGrid in the Power Industry

FibreGrid have been providing solutions to the power and utilities industry for over 20 years, with products such as open mesh and solid top trench covers, vehicle traffic trench covers, bund flooring, bund access solutions and switchroom flooring.

Along with supplying the best quality products, FibreGrid ensure the best possible service to our customers. We offer a full turnkey service - from face to face design meetings, site survey visits, access to our fabrication and installation teams as well as a highly experienced technical account manager.

FibreGrid Testing

Our products have been fully tested to meet EN124 A15, EN124 C250 and EN124 B125 standards. Test reports available on request.

Southern Office: Unit 2, Civic Industrial Estate, Homefield Road Central, Haverhill, Suffolk, CB9 8QP
Northern Office: Kingston House, 3 Walton Road, Pattinson North, Washington, Tyne & Wear, NE38 8QA

FIBREGRID

Open Mesh & Solid Top Pedestrian Trench Covers & Vehicle Traffic Trench Covers

FibreGrid offer National Grid Approved Open Mesh & Solid Top Trench Covers for pedestrian and vehicle load trenching applications. They are lightweight, corrosion resistant and easy to fabricate to size meaning they are the preferred choice to more traditional concrete covers. Our range of covers are tested to meet A15, B125 & C250 load ratings.

Bund Flooring

Our National Grid Approved Bund Flooring provides the ideal solution for areas of pedestrian foot traffic where the flow of liquids needs to be drained away. Our GRP Grating is lightweight and easy to install, non-conductive and features an anti slip gritted surface for all levels of foot traffic.

FIBREGRID

Access Solutions

FibreGrid Access Solutions include bund wall step overs and access platforms. They are lightweight and non conductive, a preferred alternative to steel on many sites.

Switchroom Flooring

FibreGrid provide a switchroom flooring solution which is non conductive, lightweight and easy to install, with an anti slip top surface, providing a safe working environment for pedestrian access.

FIBREGRID

The Experts in GRP Grating and Anti Slip Products

FibreRail® GRP Handrail

FibreRail GRP Handrail Systems is ideal for industrial sized GRP structures. It is expertly engineered to use the fewest number of handrail components available in facilitating an easier, faster installation.

GRP Access Ladders

FibreGrid's GRP Access Ladders are all manufactured to meet each client's specific requirements. Design in accordance with BS5385 Part 3. Available with either a safety cage or fall arrest system.

GRP SlipGrip® Stair Tread Covers

FibreGrid's SlipGrip GRP Stair Tread Covers are the most durable solution to slippery steps. With a DDA compliant 55mm nosing, and chemical resistant surface, they offer the ultimate in step safety.

EdgeGrip® GRP Stair Nosings

FibreGrid's GRP Stair Nosings make an excellent, more cost effective and subtle alternative to our GRP Stair Tread Covers. They provide excellent durability and slip resistance as well as complying with DDA regulations.

GRP Anti Slip Flat Sheets

Whether you need to cover a large expanse, or a small potentially hazardous area; our GRP flat sheets' tough, chemical resistant surface makes them the ideal solution to slippery floors and walkways.

GRP Anti Slip Decking Strips

GRP Decking Strips are a quick and simple solution to slippery decking. The strips can be installed over virtually any decking boards, providing excellent slip resistance whilst maintaining the original aesthetic.

Anti Slip Paints

FibreGrid produce a wide variety of anti slip paint coatings, from an extremely durable two-pack epoxy resin for floors that suffer through heavy vehicle traffic, to the SlipGrip® Step & Ramp paint, which is so powerful it is recommended for maritime use.

Anti Slip Tapes

FibreGrid's Anti Slip Tapes are our most cost effective solution to slippery surfaces. Ideal for areas of minimal foot traffic, they are extremely easy and quick to install onto any substrate.
