

FibreGrid Wash Down Bay GRP Flooring System

Product Description

FibreGrid's Wash Down Bay Grating is a high performance open mesh flooring system made from high quality GRP (glass reinforced plastic). It can either be installed onto steel supports or onto our range of adjustable pedestals.

Our GRP mesh grating is ideal for car wash bays due to the high volumes of water easily filtering through the mesh, avoiding water build up and subsequent flooding. In addition, the hard wearing and non-corrosive properties of our GRP grating mean it will be able to withstand high vehicle traffic, and any potential surface damage caused by chemicals in car wash cleaning products.

We can also create a bespoke solution to highlight the lift out sump area.

Southern Office: Unit 2, Civic Industrial Estate, Homefield Road Central, Haverhill, Suffolk, CB9 8QP
Northern Office: Kingston House, 3 Walton Road, Pattinson North, Washington, Tyne & Wear, NE38 8QA

Characteristics

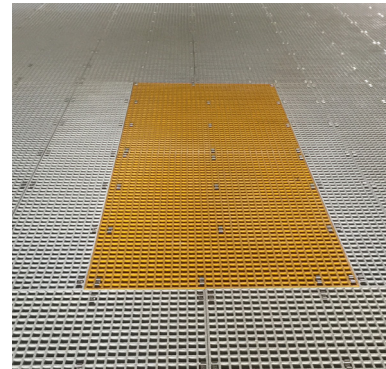

- Resistant to rot and mould
- Extremely hard wearing and durable
- Lightweight
- Easy to handle and install
- Low maintenance cost

Our adjustable pedestal range is designed to take high vehicle loads so are perfectly suited for these applications.

Over the years, we have installed our Wash Down Bay GRP Flooring System to a growing list of major car manufacturers such as Mercedes, BMW and Jaguar Landrover. Our dedicated installation team ensures the system is installed in limited time with minimal fuss or disruption to the site.
