Rubber Corner Guard Protectors

DESIGN

SUPPLY

FABRICATE

INSTALL

800mm long x 100mm wide, our Rubber Corner Guard Protectors contrasting in black and yellow offer high visibility and protection to wall and column corners.

They are constructed from high impact resistance natural rubber which relieves the tension of chipped & broken corners of pillars / columns.

They are suitable for medium & heavy traffic areas & also moving trolleys.

## CHARACTERISTICS

- High density rubber
- Impact protection
- Reflective
- Can be used internally and externally
- Help to prevent accidental damage from forklifts

## SUITABLE APPLICATIONS

- ✓ Car parks
- ✓ Hospitals
- ✓ Nursing homes
- ✓ Laboratories
- ✓ Hotels
- ✓ Schools
- ✓ Sports areas

## TECHNICAL DATA

Length	800mm
Width	100mm
Thickness	20mm
Weight	2.5kg

They fit to any corner section to suit individual requirements.

The wall must be clean and dry.

If necessary, remove all traces of grease and oil from wall surfaces using a good cleaning solvent.

There are 6 bolt holes for easy installation. Two at the top, middle and bottom.

## APPLICATION

1. 	Place corner guard on wall at desired location and mark with a pencil at each mounting hole.
2. 	Remove the guard and drill screw holes at each mark.
3. 	Wipe down the wall to remove any dust and plaster.
4. 	Replace the guard and attach to the wall with the supplied screws.
5. 	After the corner guard is installed, remove protective PVC covering.

These installation instructions are to be used as a guide. Always employ safe practices. It is recommended to first test the suitability of any fixing method on a small area before carrying out a full installation programme.
